

Test Summary Report

Introduction

This Test Summary Report outlines the testing activities conducted for the Finance Management Web Application during the period from 14th December 2024 to 19th December 2024.

The objectives of this report are to present the following:

- Status of Test Cases Executed
 - Defects Found & Their Status
 - Suggestions for Future Testing
-

Test Case Execution Status

The status of all test cases executed on the Finance Management Web Application is summarized as follows:

Test Case Status	Result
Total Number of Test Cases	24
Passed Test Cases	20
Failed Test Cases	5
Blocked/Skipped Test Cases	0

Defects Status

The table below lists the number of defects based on their priority:

Defect Status	Result
Total Number of Defects	5
Blocker	0
Critical	1
Major	1
Minor	3

The table below categorizes the defects based on their type:

Defect Type	Result
Functional	4
UI/UX	1
Performance	0

Suggestions

- **Error Validation Enhancements:** Review and address functional issues, especially those related to maximum character limits and missing password visibility functionality.
 - **Add UI Elements for Improved Usability:** Implement a password visibility toggle for a better user experience during signup.
 - **Comprehensive Compatibility Testing:** Ensure seamless functionality on all targeted browsers and devices to avoid any critical failures during live usage.
-
